Hello,

The US EPA has prepared the following information resource:

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>
Regular updates will be posted as they are available.
EPA Hotline: 844-607-9700 (toll-free)

Comments: I have a reservation for August 26th at phantom ranch at the bottom of the Grand Canyon. I am also planning to stay at a friend's vacation home in lake havasu city during the week of August 23, 2015. In light of the toxic waster water dump that appears to be making its way to the Colorado river do I need to be concerned about using the water at either location for bathing, cooking or drinking since the Colorado river is the water source for both?
